## TRAINING & RUNNING SURFACE

Premium vulcanized non-porous rubber featuring excellent shock and sound absorption qualities well suited for multisport gyms, fitness facilities and fieldhouses.

- Unique embossing provides optimal traction, even when wet.
- Suitable for all multi sport activities including volleyball, tennis & basketball.
- All-purpose prefabricated rubber athletic surface, made from the finest synthetic and natural rubber compounds.
- Proprietary base layer, designed for superior shock absorption and uniform performance characteristics.

### BASE LAYER

The base layer is designed to offer superior performance, including shock absorption and uniform performance.

### SURFACE LAYER

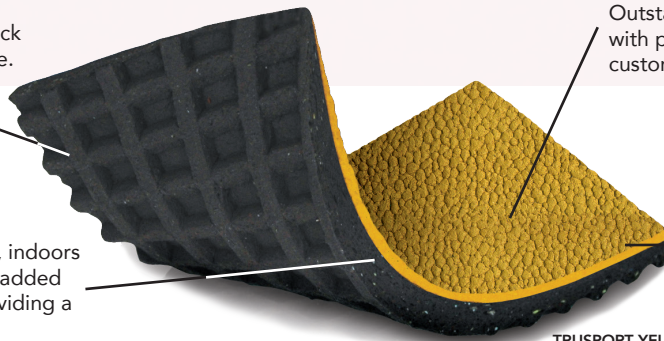

Outstanding multipurpose surface traction with pure rubber construction for bold, customizable colors.

### CORE LAYER

Designed for heavy competition, indoors and out, the core layer provides added compaction resistance while providing a superior, long-lasting shock pad.

### THICKNESS

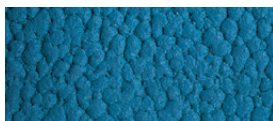

Available in 6mm, 8mm, 10mm & 12mm thicknesses for customized force reduction.
