PRO FORMA III

Connor Dance Floor Systems are engineered sprung solutions that balance the safety and wellness of the performer with the uniformity and control necessary for optimized performance. Each continuous, integrated subfloor design provides consistent sound and performance across the whole of the studio and stage surface. Pro Forma III is a varying height profile, making it ideal for multi-purpose use while providing uniformity in shock absorption and vertical deflection. Pro Forma III is ideal for all dance disciplines when used as a system with Connor Dance Vinyl.

Maple Threshold

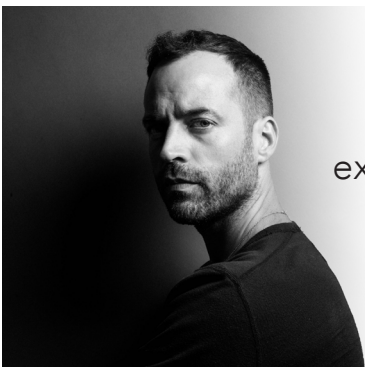

Vinyl Threshold
